DETAILED ACTION

Allowable Subject Matter

Claims 1-15, 17, 19-20, 22-28 and 30, are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 4, 15, 24 and 28, the prior art fails to teach "calculating the access point sensitivity by subtracting the path loss and an access point link margin from the communication station transmit power level", as cited in the claim.

Regarding claims 10 and 27, the prior art fails to teach "calculating the communication station link margin from the data rate and the communication station sensitivity, wherein the determining the communication station sensitivity comprises looking up the communication station sensitivity in a table based on the data rate", as cited in the claim.

Regarding claim 22, the prior art fails to teach "determine a data rate of an orthogonal frequency-division multiplexed symbol received by the receiver; determine a communication station sensitivity based on the data rate, the communication station sensitivity being either predetermined or precalibrated for various data rates; and calculate the communication station link margin from the data rate and the communication station sensitivity", as cited in the claim.

Regarding claim 23, the prior art fails to teach "performing an open-loop transmit power control procedure when the access point transmit power level is not received from the access point, wherein the open-loop transmit power control procedure includes: retrieving a communication station receiver sensitivity based on a data rate of an orthogonal frequency-

division multiplexed symbol from a table; and reducing the communication station transmit power level by a first amount when the received power level exceeds the communication station receiver sensitivity by a second amount", as cited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
